Prayer Letter (65)
May 2020

Dear Family and friends,

Greetings from Calgary, Canada! ***"Be still and know that I am God."* (Psalm 46:10a)** During this global pandemic, this verse is truly relevant to us as Christians. Because of many unknowns we have frustrations, fears over our health, families, jobs and future. But God, our Father wants us to rest in Him because He knows what He is doing and what is going on. It is comforting to know that ***"I will be exalted among the nations; I will be exalted in the earth."* (Psalms 46:10b)** Through all these hard times, uncertainties, frustrations we know God will be lifted high above the world.

We have been in Calgary, Canada since mid-March just before the lockdown. Staying with our daughter and her husband in a rented older house is a blessing. So, we have space for a vegetable garden. Staying home now we can spend more time on reading God's words, books and praying. We join a Khmer prayer group with prayer emphasis on the Covid-19 in Cambodia, revival of the nation and churches. Another group is with Living Stone church staff and members. Also, we join worship and prayer meetings in the local church. In order to keep our body in better shape we do exercises regularly. The only drawback is that we cannot spend time with our loved ones and friends because of social distancing!

Thank you so much for supporting us in caring, praying and giving. Please remember us in the followings:

Praise items:

- We can keep in touch with our staff, members and Christians in Cambodia through electronic media, pray with them and encourage them with the words of God.
- The staff of our church and school have started chat groups so that they can care for and encourage each other through God's words and spiritual songs.
- Our number 6 grandchild, Mattias was born to Simeon and Phung on April 26th. Mother and son are well except the baby shows a problem on one of his kidneys from ultrasound. Now he is waiting to see an urologist. Please pray for complete healing!

Prayer items:

- the global pandemic to be under control and over soon.
- For the healing and protection for all of us globally physically, mentally and emotionally. Comfort to those who lost loved ones, assurance to those who are fearful, losing jobs.
- The Ministry of Education of Cambodia announced that schools will reopen in November. Pray that private schools can be opened sooner so that we can have income for our staff at Sonlight Kindergarten.
- For revival, many more will come to realize that men cannot control our circumstances nor future. As a result, they will turn to trust our Father who made the universe, and everything is under His command.

Thank you. We would love to hear from you and want to pray for you!

In His service,
Joseph and Liza Ng

Please support Joseph and Eliza for their ministries in Cambodia. And we sincerely appeal for your help to SonLight Kindergarten. Due to Covid-19, the school has been temporarily closed and probably can only be re-opened in November. The school is facing great financial hardship for salary payment to teachers and staff.
